Subject: Re: San Fernando Valley 99s Career Scholarship

First and foremost, I'd like to thank you for extending the courtesy of emailing the non-recipients. It keeps us in suspense not knowing the outcome of our endeavors. Secondly, I would like to take the time to thank you, the scholarship committee and all of the San Fernando Valley 99's that make this possible. It is individuals like you that give student pilots hope of one day receiving our certifications to do what we dream of doing in aviation. I know that it is very difficult for your enterprise to choose the most qualified candidate. However, I trust that you have chosen the worthiest of individuals to represent you in the form of a scholarship award. My heart knows no envy. It is jovial for all that submitted an application and for the one that has been rewarded for his or her accolades. Thank you for your words of encouragement. I would be much obliged if this email was forwarded to the San Fernando Valley 99's so they too are aware that their community outreach is much appreciated. Thank you for opening the doors of opportunity to us all.

Best,
Gerardo
